SOFTWARE ENGINEERING

DEVINITY SOLUTIONS

Aug 2024 - Nov 2024

- Contributed to a Management System project, focusing on frontend development and real-time features. Key responsibilities included:
- **React:** Built responsive user interfaces with React, ensuring smooth and dynamic user experiences.
- **Redux:** Managed application state effectively using Redux for predictable data flow.
- **Material-UI (MUI):** Designed and implemented modern UI components for consistency and responsiveness.
- **Socket.IO:** Integrated real-time communication features, enabling live updates and notifications.
- Collaborated with team members to meet project requirements and deadlines, enhancing system functionality and performance.
